Basis for preparation

These condensed interim financial statements for the nine months period ended 30 September 2025 have been prepared in accordance with IAS 34, 'Interim financial reporting'. These condensed consolidated interim financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the [Annual report](#) for the year ended 31 December 2024.

Accounting principles

The accounting principles adopted are consistent with those of the previous financial year.

Use of estimates

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The OR III group makes estimates and assumptions concerning the future. These estimates are based on the actual underlying business, its present and forecast profitability over time, and

expectations about external factors such as interest rates, foreign exchange rates and other factors which are outside the group's control. The resulting estimates will, by definition, seldom equal the related actual results.

In preparing these interim financial statements, the significant judgements made by management in applying the OR III group's accounting policies and the key sources of estimation were the same as those that applied to the [consolidated financial statements](#) for the year ended 31 December 2024.

There will always be uncertainty related to judgement and assumptions related to accounting estimates.

Note 2 Segment summary

The OR III group receives strategic direction from its ultimate parent company, Odfjell Drilling Ltd. The internal management reporting to the Board is integrated with the Odfjell Drilling Ltd group reporting.

The OR III group provides drilling and related services to oil and gas companies. The OR III group own two mobile offshore drilling units with similar services, revenues, customers and production processes. Own drilling units (Own Fleet) is therefore assessed as one reporting segment.
